PREFACE

In one way or other everyone has the habit of collecting something special just like collecting some unique coins, foreign coins and currencies, pictures of the leaders, habitations of the ancient animals and their kinds, posters of the heroes and heroines, wallpapers of the game characters, stickers of the favorite models, tattoos of matchless arts, labels of the cartoons, Eraser of different kinds, pens with different model, clocks and watches with different varieties, distinguish types of paintings, mobiles with different applications, wings of the butterflies, feathers of the birds. Even in age old days the people even likes to collect the bones, skins, horns and hairs of different kind of animals.

This is one of the attempts to create such kind of collecting habit. It will act as a stimulus to induce the characteristics of collecting the different varieties of stamps. Here I present you only the Indian stamps.

At first the stamps in India were introduced by the British government immediate after the independence we just followed their footage. Thus the introduction of the Indian stamps was established in the same year of our independence 1947. During our independence the size of the postal sector was in the second rank in all over the world, it is also essential to know that the size of the railway sector was in the rank one largest sector in comparison to other country it is due to make the connectivity of natural resources all around our country by the British government.
